

adapt® 600

Here's what some of our customers think:

*“ In the adapt®600 range, we've discovered the only size-tailored chair which I can fit to almost any user...we love the fact that it's from a British manufacturer and at such outstanding value for money it has increased the level of service perfection I am able to offer my clients. ”*

*“ The adapt®600 range has completely shaken the ergonomic chair market in the UK. The scope for tailoring, the range of options and the level of service we get from Ergochair is absolutely unrivalled by any other supplier I deal with. It's all changed, now you can have a chair that is cut out to fit you. Brilliant! ”*

Because people are unique...  
so is each one of our chairs

adapt® 600

Our **adapt<sup>®</sup> 600** concept is simple

**2** We take into consideration any special requirements or disabilities

**1** We take a set of dimensions from you

**3** We take care and pride in hand-making a bespoke office chair, just for you

We form each chair around **your measurements**, working alongside an Occupational Therapist, Physiotherapist or Assessor.

Designed and manufactured in the UK by craftsmen

Air-cell technology is used along with graded or sculpted foams and upholstery to further enhance the feel and support of the chair.

We'll build bespoke, **tailored office chairs**, perfect for you...

Your office chair is the single most important piece of office equipment. You interact with it all day, using your whole body. It should support you in exactly the right places... and fit you, like a glove!

The adapt<sup>®</sup> 600 system has been designed to provide a made-to-measure office chair solution with the ability to cater for a wide range of special needs and disabilities...with a realistic, cost-effective price tag.

Some of the specialist applications within the **adapt<sup>®</sup> 600** system are...
